Dedykowany układ dolotowy Mishimoto Volkswagen GTI 2015+ czarny

Cena brutto	2 147,00 zł
Cena netto	1 745,53 zł
Numer katalogowy	MMAI-MK7-15WBK

Opis produktu

The Volkswagen GTI has always been one of the best hot hatches out there, but that doesn't mean that it can't use some extra power. When put on the dyno, the Mishimoto MK7 GTI intake boasted maximum gains of 12 whp and 14 wtq using the stock tune on our test car! Those power increases, coupled with an aggressive intake tone, make this MK7 GTI intake an excellent upgrade for any street or track car. The black powder-coated airbox keeps hot air from entering the filter to help reduce air inlet temperatures. The included SAI filter and port allow this MK7 GTI intake to work with SAI or non-SAI systems. This all-inclusive kit makes for an easy, direct-fit installation that can be accomplished in one hour. Included with this MK7 GTI intake kit is the Mishimoto Lifetime Warranty, to ensure all components are of the upmost quality. Direct fit for 2015+ Volkswagen Golf/GTI/Golf R. Dyno-proven max gains of up to 12 whp / 14 wtq on a stock tune. 1 hour install and fits with the stock air inlet duct. Pipe Diameter: 3" OD / Pipe Material: Mandrel-Bent Aluminum / Airbox Material: Steel, Black Powdercoat. Mishimoto Lifetime Warranty
