Dedykowany układ dolotowy RTMG Performance VW Golf Polo Passat Arteon Audi A3 Q2 Q3 1.5 TSI

Cena brutto	1 978,90 zł
Cena netto	1 608,86 zł
Numer katalogowy	RTMG-901-0044

Opis produktu

The new Direct Intake System is a bolt-on kit, that is mounted to the front of the vehicle without the need of extra silicone couplers and ducts. Our design allows the maximum airflow with minimum restrictions and direct feed to the turbocharger. This results in increased airflow, better throttle response and a crisp engine sound that enhances the driving experience. The use of vacuum infused carbon fiber reduces heat transfer from the hot engine bay to the cold air charge coming from the front grille, and thus performance is significantly improved. Moreover, heat soak is minimized, especially at low-speed city driving or traffic. The Kit includes: Direct Cold Air Intake Black Silicon Spiral Tube Black Metallic Connector Stainless Clamps Suitable for the following cars : VW Golf MK7 VW Polo 6 VW Passat VW T-Roc VW Tiguan Audi A3 Audi Q2 / Q3 / Q5 Seat Leon Skoda Kodiaq Skoda Superb Skoda Octavia
