Opis produktu

The Mishimoto aluminum fan shroud kit for the Mitsubishi Eclipse 1995-1999 Turbo is the ideal upgrade from your standard stock shroud. All Mishimoto fan shrouds are made for a direct stock fit and are significantly lighter than stock shrouds. They will increase your car's cooling performance by delivering a significant amount of air to your Eclipse turbo performance radiator and driving out excess heat from your engine. Mishimoto fan shroud kits safely secure the fan blades from any potential damage to other essential engine components. All Mishimoto aluminum fan shrouds include an adhesive protective strip. This adhesive-backed foam strip seals any remaining gap between the fan shroud and radiator so that the fans are only moving air that has passed through the radiator core as opposed to pulling in air from the engine bay, resulting in improved cooling efficiency. Direct fit for the 1995-1999 Mitsubishi Eclipse Turbo. Overall size: 16.5" x 27" x 3.5". Maximizes airflow with CFM of 2300. Includes aluminum fan shroud and two 12" slim electric fans. Mishimoto Lifetime Warranty.
