Opis produktu

The Mishimoto aluminum fan shroud kit for the Mitsubishi Lancer Evolution 7/8/9 is the ideal upgrade from your standard stock shroud. All Mishimoto fan shrouds are made for a direct stock fit and are significantly lighter than stock shrouds. They will increase your car's cooling performance by delivering a significant amount of air to the Mitsubishi Evolution radiator and driving out excess heat from your engine. Mishimoto fan shroud kits also safely secure the fan blades from any potential damage to other essential engine components. All Mishimoto aluminum fan shrouds include an adhesive protective strip. This adhesive-backed foam strip seals any remaining gap between the fan shroud and radiator so that the fans are only moving air that has passed through the radiator core as opposed to pulling in air from the engine bay, resulting in improved cooling efficiency. Direct fit for 2001-2007 Mitsubishi Lancer Evolution 7/8/9. Overall size: 17" x 16" x 3.75". Maximizes airflow with CFM of 1150. Includes aluminum fan shroud and one 14" slim electric fan. Mishimoto Lifetime Warranty.
