Opis produktu

The Mishimoto Nissan 240SX S13 aluminum fan shroud kit is the perfect match for our radiators. Mishimoto fan shrouds are made for a direct stock fit and include two 12-inch Mishimoto electric fans. All Mishimoto fan shrouds are significantly lighter and more durable than stock fan shrouds and will notably improve engine cooling performance by delivering a significant amount of cooler air directly to the S13 radiator. Mishimoto fan shroud kits also safely secure the fan blades from any potential damage to other essential engine components. All Mishimoto aluminum fan shrouds include an adhesive protective strip. This adhesive-backed foam strip seals any remaining gap between the fan shroud and radiator so that the fans are only moving air that has passed through the radiator core as opposed to pulling in air from the engine bay, resulting in improved cooling efficiency.
