Opis produktu

The Mishimoto Nissan 300ZX aluminum fan shroud kit will considerably improve engine cooling functions and the overall performance of your vehicle. All Mishimoto fan shrouds are significantly lighter than standard fan shrouds. In maintaining the lifetime of your engine, it is ideal to keep your engine running cool, especially during those unbearably hot days. A Mishimoto fan shroud will notably improve engine cooling performance by delivering more air to your 300ZX turbo aluminum radiator and driving out excess heat. The fan shroud serves another very important purpose: It secures the fan blades, preventing potential damage to other essential engine components.Fits the 1990-1996 Nissan 300ZX TurboHeight: 15.55" Length: 22.83" Width: 3.5"Includes one 16" slim electric fan with 1150 CFMCompatible with OEM and Mishimoto RadiatorsMishimoto Lifetime Warranty
