Opis produktu

Mishimoto has developed an aluminum fan shroud kit for the Nissan Skyline R32 that will considerably improve engine cooling functions and the overall performance of your vehicle. All Mishimoto fan shrouds are significantly lighter than standard fan shrouds, and are a direct stock fit. A Mishimoto fan shroud will effectively drive out heat from the engine bay and deliver a significant amount of cooler air to the Skyline performance radiator. The fan shroud will also secure the fan blades in place, which will prevent damage to other essential components in your engine. All Mishimoto aluminum fan shrouds include an adhesive protective strip. This adhesive-backed foam strip seals any remaining gap between the fan shroud and radiator so that the fans are only moving air that has passed through the radiator core as opposed to pulling in air from the engine bay, resulting in improved cooling efficiency.

- Direct fit for the Nissan Skyline R32
- Overall size: 16.3" x 25.5" x 3.5"
- Maximizes airflow with CFM of 2300
- Includes aluminum fan shroud and two 12" slim electric fans
