Numer katalogowy	331388197
Kod producenta	MMFS-BRZ-13P

Opis produktu

Free up some space in your BRZ / FR-S / or GT86's small engine bay with the Mishimoto Plug-N-Play Aluminum Fan Shroud Kit! This kit bolts directly to your stock or Mishimoto Subaru BRZ / Scion FR-S Performance Aluminum Radiator and works perfectly with the stock coolant overflow tank. The brushed aluminum fan shroud is preassembled in the correct location with two 12" fans, and prewired with stock-style connectors. This plug-n-play kit requires zero splicing, soldering, or crimping and bolts into place just like the stock fan shroud setup. Thanks to a slim profile, this fan shroud has a maximum depth of just 3.5" that saves significantly more engine bay space for a larger header, turbo kit, or supercharger. This kit includes all hardware for installation and the Mishimoto Lifetime Warranty. Direct plug-n-play for the 2013+ Subaru BRZ / Scion FR-S. Height: 14.2" Length: 29.7" Width: 3.5" center, 5" with mounting tabs. Includes two high-flow 12" fans, each providing over 1150 CFM of airflow. Fans are pre-wired with stock-style connectors. Mishimoto Lifetime Warranty.
