Kod producenta	**E2-SW26-KITB**

Opis produktu

The **XFORCE** 3” downpipe for **Subaru WRX sedan** owners removes a substantial factory restriction.

The large bore 304 grade stainless stell pipework and high-flow 100-cell motorsport catalyst combined, reduce back-pressure significantly, releasing more power and more torque across the rev-range.

Due to the additional exhaust gas flow, tuning to compliment the additional performance and to turn off the EML is recommended.

- Bolts to factory turbo
- 3″ pipe work
- 100 cell high flow catalytic converter
- 304 exhaust grade stainless steel
- For manual vehicles only

Please note: This product is equipped with a 100 cspi sports catalytic converter which is dedicated for track use only and it may not pass the emission test. Please check if high efficiency catalytic converters can be used on roads in your country.

Xforce offers a range of uniquely engineered and designed stainless steel bolt on exhaust systems.
Theses exhaust systems bolt directly to existing mounting points making installation easy.
They are built to perform well, with materials designed for longevity and like all Xforce exhaust systems they look great!
The unique header design increases power throughout the rev range, while providing a great engine audio note – make it roar!
