## Dual Catch Can Kit for Lamborghini Gallardo LP Fluid Lock Radium Engineering

Cena brutto	<b>2 488,99 zł</b>
Cena netto	<b>2 023,57 zł</b>
Numer katalogowy	<b>USA-RAD-20-0859-FL</b>

### Opis produktu

COMPATIBILITY08-13 Lamborghini Gallardo LP550-2 (all trims)08-13 Lamborghini Gallardo LP560-4 (all trims)08-13 Lamborghini Gallardo LP570-4 (all trims) Radium Engineering catch cans feature large 10AN ORB ports, a 4AN ORB drain port, 2-step oil separation baffling, and an O-ring sealed dipstick. These kits mount using factory holes and integrate perfectly with the surrounding components. They do NOT vent to atmosphere (VTA), thus are emissions and track legal. Closed loop systems remove the oil and sludge from the PCV gasses before it is routed to the engine to be burned. A closed loop system also promotes negative crankcase pressure for optimal performance. Furthermore, closed systems prevent unwanted oil vapors from entering the cabin. The built-in dipsticks allow easy inspection of accumulated fluid. No cutting, drilling or permanent modifications are required. The Radium Engineering catch can kit consists of a PCV and a CCV catch can. The bracket secures to the LH deck lid mount against the firewall. INCLUDES-Baffled oil catch can (x2)-Gallardo specific mounting bracket-AN adapter fittings and hose ends-Stainless steel hardware-Radium rubber hose Instruction PDF
