Opis produktu

FMBH7 is yet another **performance upgrade** product for the Hyundai i20N, perfectly complimenting the [parts](#) we have already released. This dump valve discharge hose uses a four-ply silicone construction, which is a substantial improvement over the single ply rubber OE hose. As such, the longevity of FMBH7 will far eclipse that of the OE hose, which is why Forge Motorsport gives a **lifetime warranty** on all silicone-based products.

Not only is FMBH7 a functional improvement, but with it being available in black, red, or performance blue, this product really helps to improve the looks of the i20N's engine bay. This product really compliments our [FMTIA11](#) when ordered in the accompanying colour. This product is a direct fit for the OEM part.

- The hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or

-
- air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically.
 - Lifetime warranty
