Opis produktu

Highlights:

- Made from billet aluminium for durability
- Hand polished in the UK for a sleek appearance
- Creates the iconic "Whoosh" sound associated with rally cars
- Improves throttle response
- Increases clamping load to maintain boost pressure reliably
- Designed, manufactured, and assembled in the UK
- Lifetime warranty

An Alloy Atmospheric Dump Valve specifically designed to fit Subaru Impreza models from 2001 onwards, including the 2009 GR STi. This high-quality valve is made from billet aluminium and hand polished in the UK to ensure durability and a sleek appearance. By installing this atmospheric diverter valve, you can experience the iconic "Whoosh" sound that is commonly heard in rally cars when the throttle is lifted. Not only does it add an exciting auditory experience, but it also **improves throttle response** and increases clamping load to maintain boost pressure more reliably.

□ I bought this product and got to say sounds really good nice blow off noise and looks very impressive when lift the bonnet great quality and service □

In The Box:

1 x FMDVSUB01 Valve
1 x 34mm Blanking Plug
1 x Forge Sticker
