Opis produktu

The Focus RS begs to be driven aggressively, and with more intense driving styles comes the dark art of heel-toe. Only the best can tame the RS with a properly executed rev-match and be rewarded by the feeling of powering through a corner. At Mishimoto, we love driving our RS, and in the process of testing various parts on our engineering vehicle, we created the pedal spacer. This spacer brings the gas pedal closer to the driver's foot and more even with the brake pedal for optimal heel-toe action. Enthusiast tested and approved, the pedal spacer is an excellent addition for any Focus RS at the track.
