### Opis produktu

- Yellow stuff Fastest Street, Track day & Drift racing brake pads High friction formula improves brake effect 30-40%.
- Fastest brake pads for Street, Drift & Track day racing
- Zero brake fade makes this material perfect for fastest driving.
- Capable of repeated heavy brake use without brake "Fall-Off".
- Very minimal disc/rotor damage characteristics.
- Suitable for shorter track events and race use.
- Medium hardness material feels good at pedal.
- If all you need is stopping power, this is the material choice.
- ECE R 90 type approved for most cars. Features red "brake in" surface coating for instant safe braking after install.
