Fast Road Dump Valve

Forge

Cena brutto	743,58 zł
Cena netto	743,58 zł
Dostępność	Na zamówienie
Numer katalogowy	379174479
Kod producenta	FMDV001-SILVER
Kod EAN	*5056721237749*

Opis produktu

THIS IS NOW DISCONTINUED. [FMDV004](#) IS THIS PRODUCTS REPLACEMENT

Made from billet aluminium, this atmospheric diverter valve dumps the charge-air to atmosphere creating the "Whoosh" sound most commonly associated with rally cars when the throttle is lifted. This increases both quicker throttle response and higher clamping load to maintain boost pressure more reliably. All Forge Motorsport Single-Piston and Diaphragm Atmospheric Valves have been designed and built with the intent of venting 100% of the residual charge air remaining in your forced induction system to the atmosphere at throttle lift.

Forge Motorsport nor any of it's Authorised Distributors can assume any responsibility for any adverse effects resulting from the installation of this valve onto a vehicle whose engine-management-system, whether factory or aftermarket, is not capable of compensating for the loss of metered air through a vent-to-atmosphere valve such as this.

Fitment Guide: Suitable for ALL turbo cars without an Air Flow Meter

Please select whether you would like a black or polished silver valve using the options above.

In The Box:
1 x FMDV001 Valve
1 x Forge Sticker

If you wish to tune this product to fit the needs of your engine, please see the spring tuning kit below.
