Focus ST Mk3 TDCi Inlet Hose

Cena brutto	522,08 zł
Cena netto	522,08 zł
Dostępność	Na zamówienie
Numer katalogowy	379176659

Opis produktu

The Forge Motorsport high flow intake hose for the Focus ST TDCi removes the 'corrugated' construction of the original Ford hose, with a smooth internal bore to improve engine efficiency. Available in a choice of red, blue or black, and with an installation time of less than 15 minutes, this is a worthwhile addition to brighten up your engine bay and increase airflow at the same time.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
