Cena brutto	<b>522,08 zł</b>
Cena netto	<b>522,08 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379176659</b>

### Opis produktu

The Forge Motorsport high flow intake hose for the Focus ST TDCi removes the 'corrugated' construction of the original Ford hose, with a smooth internal bore to improve engine efficiency. Available in a choice of red, blue or black, and with an installation time of less than 15 minutes, this is a worthwhile addition to brighten up your engine bay and increase airflow at the same time.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty\*
