Opis produktu

Product Description: De-resonator induction hose for the 1.0 Ecoboost.

This Forge Motorsport silicone induction hose (aka Secondary Induction hose) will fit both the Ford Fiesta Mk7 and Focus Mk3 1.0 Ecoboost engines. It is not just a visual improvement to the engine bay, but features a smooth internal bore offering less restriction to the turbocharger than the OEM resonator pipe. This means increased airflow to the engine and enhanced induction noise. This hose is available in red, blue and black with stainless steel hose clamps.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
