### Opis produktu

The Forge Motorsport boost hoses for the Focus RS Mk3 replace the three major hoses between the turbo outlet and inlet manifold. The hoses feature a smooth internal bore and a multi-ply construction to ensure longevity of the hoses. They are available in a choice of blue, red or black.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty\*
