### Opis produktu

A set of 4 ultra-high performance brake lines for the Ford Focus ST250 Mk3. These are a direct replacement/upgrade for the OEM brake line set and require no further modifications to fit.

Hosetechnik lines are hand-finished with Teflon-lined braided stainless steel bodies and custom-machined stainless fittings, resulting in a brake hose that will perform under the most extreme and harsh conditions, whilst still looking good and performing at the highest level. They are available in multiple hard-wearing PVC sleeve colours, which look amazing, and protect against dirt and water ingress.

Our hoses eliminate all the problems associated with standard OE lines

- Immediate brake pedal response
- Lifetime Warranty
- Choice of colour
- Reduces pedal sponginess under hard braking
- Compatible with all brake fluids
- Will not corrode
