## Forge Motorsport Ceramic Rear Brake Pads

Cena brutto	<b>626,75 zł</b>
Cena netto	<b>626,75 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379176814</b>
Kod producenta	<b>FMBKRPAD</b>
Kod EAN	<b>*5056721215358*</b>

### Opis produktu

#### Forge Motorsport CERAMIC road and competition Rear brake pads

##### Engineered to STOP

We are pleased to add our own Forge CERAMIC rear brake pads to our established Forge big brake kits. This is the result of rigorous testing and development alongside one of the industry's leading OEM and racing brake pad manufactures and suppliers. Featuring advanced material formulations and unique product design.

As you would expect from Forge, we are supplying a product that delivers the ideal combination of Ceramic braking Technology aligned with performance, comfort, and reliability.

- Strength and flexibility - the optimal degree of thermal expansion to prevent stress and surface cracking.
- Noise prevention - Diagonal design evenly distributes the contact between the pad and disc minimizing noise and judder effect.
- Unrivalled and sustainable performance and comfort - Designed for low dust, low noise NAO formulation, with no compromise in braking effectiveness throughout the friction lifespan.
- Consistent stopping power - Tested to provide braking that you can rely on 100% of the time, in all road and track conditions
- Long lasting quality - A new generation of CERAMIC component material, engineered for excellent wear characteristics and maximum replacement intervals.

Please note the higher the figure (rating) on the above graphic the better the performance.
