Opis produktu

Honda Civic Type R 2015-on Ancillary coolant hoses

This set of 6 ancillary coolant hoses replaces the visible coolant hoses in the engine bay. They are designed to withstand higher temperatures and pressures than the OEM hoses, and are safe for use with OAT coolant. They can be used together with our replacement radiator hoses [FMKC017](#)

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
