Kod producenta	FMINLH7

Opis produktu

FMINLH7 – Audi RS3 (8V) inlet hose

This Forge Motorsport hose replaces the factory convoluted plastic hose that goes from the intake to the hard turbo inlet pipe. Being right on the top of the engine bay, it's very noticeable so this makes a good visual upgrade under the bonnet. Available in red, blue and black

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
