Forge Motorsport Turbo Blanket

Cena brutto	469,70 zł
Cena netto	469,70 zł
Dostępność	Na zamówienie
Numer katalogowy	379176003
Kod producenta	FMTUBL1
Kod EAN	*5056721234823*

Opis produktu

The Forge Motorsport Turbo Blankets are designed to isolate the radiant heat produced by the turbocharger. Designed by the Forge development team for the EA888 TSI vehicles, the Forge turbo blanket is designed to assist in the protection and prolonged life of the engine components.

- Stainless Steel Rivets
- Stainless Steel Fasteners
- Carbon fabric Outer Shell
- Calcium Magnesium Silicate Wool constructed Inner Core
- High temperature silica fabric

The unique design will assist in reducing turbo lag and produce cooler air intake temperatures, The Forge turbo blanket will lose its flexibility over the first few heat cycles as the material cures, so once fitted it should **not** be removed as you will likely damage the blanket.

Design innovation keeps the heat of the exhaust gases contained within the hot side of the turbocharger, away from the cool side and the intake path. More oxygen per unit volume reaches the engine, therefore giving more power. This product also fits the vehicles with the following turbochargers:

- T4
- T5
- T25
- The Garrett GTX28 and GTX30 Range
- Borg Warner EFR6258

Interior Surface:

-
- Max Temperature Rating: 2300°F/1260°C
 - Continuous Use Limit: 1832°F/1000°C

Exterior Surface:

- Direct Contact Limit: 1800°F/982°C
- Radiant Heat Limit: 2500°F/1371°C
