15-20 Shelby GT350 (S550)
20-22 Shelby GT500 (S550)
13-14 Shelby GT500 (S197)

OVERVIEW

The Radium Engineering pump hanger is an excellent solution for increasing the fuel flow on modified 2011+ Ford Mustang vehicles. It can be used with 1 or 2 aftermarket pumps, with several pump options available. This drop-in unit replaces the OE in-tank fuel pump module and is safe for use with alternative fuels such as E85. Unlike many drop-in pump hangers on the market, the Radium Engineering fuel pump hanger features a carefully designed collector box that keeps fuel trapped around the fuel pump(s).

FEATURES

- Drop-In Installation
- Permits 1 or 2 Pumps
- Integrated 1:1 Adjustable FPR
- Fuel Starvation Protection
- High Current Electrical Hardware
- Compatibility with Popular Fuel Pumps
- Anodized Aluminum Construction
- Gasoline, Methanol, Ethanol Compliant
- Fuel Resistant Tubing and Wiring
- Stainless Steel Hardware
