20-1511 FUEL HANGER, MK4, PUMPS NOT INCLUDED, TI AUTOMOTIVE E5LM

This fuel pump hanger is designed specifically for the Ti Automotive E5LM brushless fuel pump.

Because of pump height, the maximum amount of Ti Automotive E5LM brushless pumps that can be physically installed is 2.

A popular fuel pump strategy is to use both brushed and brushless pumps (E5LM) together as depicted below. In this case, the most cost effective solution is to purchase the following:

P/N: 20-1511 (shown above), Qty: 1

P/N: Ti Automotive BKS1001, Qty: 1 or 2 depending on how many brushless pumps will be used.

P/N: 14-0543, Qty: 1 or 2 depending on how many Ti Automotive E5LM brushless pumps will be used.

P/N: Walbro GSS342 or AEM 50-1200, Qty: 1 or 2 depending on how many brushed pumps will be used.

P/N: 14-0143, Qty: 2 or 3 depending on how many Walbro GSS342 pumps. These are NOT needed for AEM 50-1200 pumps.

P/N: 14-0291, Qty: 0 or 1 or 2 depending on how many Walbro GSS342 or AEM 50-1200 pumps will be used.

P/N: 17-0051-00, Qty: 1 or 2 depending on how many Walbro GSS342 or AEM 50-1200 pumps will be used.
