Opis produktu

Fuel Injector Screen 12 Pieces

Manufacturer: Radium Engineering

These 35 micron inlet filter baskets are compatible with many fuel injectors. They are NOT directly compatible with the popular Bosch EV14 injector. However, they are compatible with the aftermarket billet aluminum hats that adapt to the top of the Bosch EV14 injector.

Sold in sets of 12 only

There are many ways to extract the original filter basket. However, Radium Engineering recommends using a proper "fuel injector filter removal tool" to avoid damaging the injector.

Dimensions (mm) = 6x3x13. Measure before ordering.
