Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331496925</b>
Kod producenta	<b>USA-RAD-20-0023-01</b>

### Opis produktu

This fuel hose and gauge kit is designed for use on the 2004+ Lotus Elise and Exige with the 2ZZ-GE engine, both supercharged and normally aspirated. This kit replaces the factory fuel hose and connects directly to the OEM 2ZZ-GE fuel rail. All fittings are included for a bolt-on installation. This kit is helpful for tuning or troubleshooting the fuel system on the 2ZZ-GE engine.

The stainless steel braided PTFE hose is compatible with all fuel types including E85. PTFE is non-permeable and does not release fuel vapor. The hose ends are anodized aluminum and comes fully assembled.
