Opis produktu

Walbro 90000234 350lph Fuel Pump (No Check Valve)

The F90000234 is one of the highest performing fuel pumps that we offer for gasoline/race gas for in-tank applications. Many have achieved 1300+ WHP on race gas with 2 of these fuel pumps.

Features:

- Compatible with gasoline and race gas (not for use with ethanol blends)
- Able to operate at 87 psi total fuel pressure
- Capable of supporting 750+HP @ 60 PSI
- NO internal check valve, ideal for racing applications to build oil pressure prior to start-up.
- Featuring award winning DCSS technology
- Dual channel turbine pump for very quiet operation
- 1/4" positive terminal, 3/16" ground terminal on pump body
- Not recommended for methanol/ethanol blends
- Universal application

Includes:

- (1) Walbro F90000234 340lph High Pressure Fuel Pump (No Check Valve).
