Opis produktu

20-0469 Fuel Rail Plumbing, Nissan VQ35HR and VQ37VHR

When used with the 20-0458 fuel rails, this kit permits a bolt-on, plug and play affair for both VQ35HR and VQ37VHR engines.

An SAE adapter connects to the OEM hard line underneath the vehicle. PTFE hoses route fuel to the front fuel rail ports. 8AN ORB plugs and 6AN adapter fittings are included for all fuel rail ports. Additionally, two of the 20-0459 adapters are included to allow the OEM fuel pulse dampers to be reused.
