### **FUEL RAILS**

#### **20-0866 FUEL RAILS, AUDI R8, LAMBORGHINI HURACAN**

Manufactured with very large 0.7" internal bores, the fuel rails can support all necessary engine power requirements. They are CNC machined from 6061 aluminum, anodized, and laser etched for a high quality surface finish. Each fuel rail has four 8AN ORB ports (8 in total). Like the OEM fuel rails, the injector bores are 14mm ID so factory injectors, or any equivalent aftermarket injector, can be used.

20-0866 only includes the fuel rails and the mounting hardware, making it ideal for custom applications.

The fuel rail is compatible with all fuel types including popular alcohol mixtures such as E85.
