Packaging : 4 liter can GReddy part number : 17501275 GReddy 0530 SS Specialized Engine Oil (4L, Swift Sport)
SpecificationsGReddy 0530 SS (for "Street Spec") is a high-performance engine lubricant specially designed for the M16A and K14C engines of Suzuki Swift Sport used in city, streets and expressway driving. Providing complete engine lubrication in all driving conditions and temperature ranges, its H-I based formula combines fuel efficiency, environmental friendliness and high protection. This oil contains DI additives offering excellent cleaning and dispersion performance, as well as high oxidation stability. It prevents low-speed auto-ignition (LSPI), which can affect direct injection turbo engines, and reduces the risk of damage to pistons and connecting rods caused by this phenomenon. Made in Japan, this 100% synthetic oil is packaged in 4-litre cans.
