Opis produktu

GReddy 0540 FA20/FA24 Oil 100% synthetic engine oil Grade 5W40 Specifically formulated for Toyota GT86/GR86 & Subaru BRZ Optimal engine protection Street and track use Packaging : 5 liter can Greddy part number : 17501269 Greddy 0540 Engine Oil for FA20 & FA24 Specifications Greddy 0540 Specialized Oil for FA20 and FA24 is a high-performance engine lubricant specifically designed for the 2.0L and 2.4L boxer engines of the Toyota GT86, GR86 and Subaru BRZ used on street or track. Produced in Japan, this 100% synthetic 5W40 oil has been developed with a focus on engine protection thanks to excellent hydraulic stability and high oil film retention to cope with the rapid rise in lubricant temperature during sports driving. Its tri-ester formula guarantees excellent heat resistance, high lubricity and hydrolytic stability. What's more, thanks to the addition of polyalphaolefins (PAO), Greddy 0540 oil is equipped to withstand all temperature ranges and ensure quick lubrication of the engine interior, even during cold starts. Finally, it contains an FM Booster that reduces the coefficient of friction by forming a film on the metal surface, for improved response, delayed wear and controlled oil temperature.
