GReddy Airinx-GT Air Filter Specifications
This GReddy Airinx-GT high performance filter goes in place of the original air filter of your vehicle. Made with special fibers, it provides a higher intake flow compared to the standard filter while its laminated metal structure guarantees excellent rigidity and durability. The rubber housing is fully sealed and prevents even the smallest dust from entering the intake. This filter is very high quality while remaining particularly affordable and fits directly in the original air box.
