GReddy "Airinx" Universal Air Filter Specifications  
Made in Japan, the "Airinx" universal filter is identical to those included in GReddy turbo kits, or GReddy direct intakes. Over time your OEM ail filter can become dirty, greasy and worn out, reducing your engines performance. To improve filtration and you engines suction, GReddy propose a high quality filter, available in black they are both efficient and discreet. Consisting of multiple layers of high performance urethane filter elements, this filter is ideal for maximizing air flow while improving filtration fineness.
