Opis produktu

GReddy Aluminium Pulley Kit
To suit Mazda RX-7 FD3
Engine code : 13B-REW
Duralumin (A2017) with anodized blue finish
Improved engine response
Minimised power losses
Lightweight and sturdy
Eliminates air pump
GReddy part number : 13542101
Fast shipping !
GReddy Aluminium Pulley Kit for Mazda RX-7 FD3S Specifications
This GReddy pulley kit has been specially developed for the 13B-REW of the Mazda RX-7 FD3S. Thanks to their design in duralumin (an alloy made from aluminium, copper, magnesium and manganese) with a blue anodised finish, these pulleys are as light as they are strong, significantly reducing the inertia momentum of the engine's axis of rotation. Power losses are minimised and throttle response is improved. Please note that this kit does away with the original air pump.
Kit contents :
Water pump pulley
Alternator pulley
Belt
