To suit Mazda RX-8 SE3P
Engine code : 13B-MSP
Duralumin (A2017) with anodized blue finish
Improved engine response
Minimised power losses
Lightweight and sturdy
Compatible with OE belts
GReddy part number : 13542102
Fast shipping !
GReddy Aluminium Pulley Kit for Mazda RX-8 SE3P Specifications
This GReddy pulley kit has been specially developed for the 13B-MSP of the Mazda RX-8 SE3P. Thanks to their design in duralumin (an alloy made from aluminium, copper, magnesium and manganese) with a blue anodised finish, these pulleys are as light as they are strong, significantly reducing the inertia momentum of the engine's axis of rotation. Power losses are minimised and throttle response is improved. These pulleys are perfectly compatible with original belts.
Kit contents :
Water pump pulley
Alternator pulley
