Fast shipping !
GReddy Aluminium Pulley Kit for Nissan 200SX S14 Specifications
This GReddy pulley kit has been specially developed for the SR20DET of the Nissan 200SX S14. Thanks to their design in duralumin (an alloy made from aluminium, copper, magnesium and manganese) with a blue anodised finish, these pulleys are as light as they are strong, significantly reducing the inertia momentum of the engine's axis of rotation. Power losses are minimised and throttle response is improved. These pulleys are perfectly compatible with original belts.
Kit contents :
Water pump pulley
Power steering pulley
Alternator pulley
