Opis produktu

GReddy GXPA16 Steering Wheel To suit Toyota GR Yaris GXPA16 True to the OE steering wheel design Diameter : 355 mm Black carbon and high-quality leather upholstery Hand-made GReddy 3-color stitching Lightweight and highly rigid frame Engraved GReddy logo Compatible with genuine steering wheel parts (except steering wheel heater) GReddy Black Carbon Steering Wheel with 3-Color Stitch for Toyota Yaris GR Specifications Designed for the Toyota GR Yaris GXPA16, this GReddy steering wheel enhances the driving experience by providing superior comfort while retaining the design and functionality of the standard steering wheel. It is covered in real black carbon and leather with pistol grip sides for an excellent grip. The GReddy logo reinforces the sporty look. With a diameter of 355 mm (10 mm less than the original), this steering wheel allows for more direct handling by limiting the extent of movement. It rests on a light, rigid frame and features hand stitching in the GReddy colours (blue, yellow and navy). The parts supplied with the genuine steering wheel, the airbag and the paddle shifters can be transferred as they are to this GReddy steering wheel. Note that if the vehicle is fitted with a heated steering wheel, this function will not be compatible with this product. The airbag, switches, paddle shifters and covers are not included.
