Made in Japan
GReddy part no. : 13522309
GReddy Black Surge Tank Kit for Nissan RB26DETT Specifications
Designed specifically for the RB26DETT in Nissan Skyline GT-Rs (R32, R33 and R34), this GReddy kit boosts the performance of stock engines or fitted with a mild turbo upgrade (bolt-on turbocharger). It retains the standard 6 ITB (independent throttle bodies) setup and requires no special intercooler piping. It features a 3.5-litre collector tank and longer, tapered runners to improve low- and mid-range torque.
Key Features
3.5-liter collector tank capacity (vs OE 3.4-liter capacity)
CNC machined runners 55mm length, pipe diameter 58-45mm (tapered)
Compatible with OEM AAC valve and TPS (Throttle Position Sensor)
Kit Contents
Surge tank in black alumite
6 CNC primary runners
