Opis produktu

GReddy Circuit Spec Center Pipe
For Nissan GT-R R35
Engine code : VR38DETT
Removes the secondary catalytic converter
SUS304 stainless steel
Tube diameter : 2x 76.3 mm, 90 mm
Bolt-on fitment
Made in Japan
GReddy part number : 10520602
GReddy Circuit Spec Center Pipe Specifications
Known worldwide for its exhausts, the Japanese manufacturer GReddy presents the Circuit Spec center pipe for Nissan GT-R R35 with VR38DETT engine. This Y-pipe type tube removes the standard secondary catalyst and improves gas flow, engine response and overall performance. As it removes an important part of the car's emission control system, its use is prohibited on open roads. This part is made of polished SUS304 stainless steel for superior durability and is supplied with the necessary hardware for mounting.
Characteristics :
Section : center pipe
Material : stainless steel
Type : 1 piece, diam. 76.3 mm x2, 90 mm
Note : For even more performance, GReddy recommends pairing this center pipe with the available Circuit Spec front pipes and Power Extreme R exhaust system for GT-R.
