For Toyota GR Yaris GXPA16  
Engine code : G16E-GTS  
Removes the primary catalytic converter  
SUS304 stainless steel  
Bolt-on fitment  
Made in Japan  
GReddy part number : 10510606  
GReddy Circuit Spec Front Pipe  
Specifications  
Known worldwide for its exhausts, the Japanese manufacturer GReddy presents the Circuit Spec front pipe for Toyota GR Yaris GXPA16 with G16E-GTS engine. This SUS304 stainless steel pipe removes the standard primary catalyst just after the turbo and improves gas flow, engine response and overall performance. As it removes an important part of the car's emission control system, its use is prohibited on open roads.  
Warning: After installing this front pipe, the engine warning light (catalyst fault) may turn on. In this case, GReddy recommends to have the ECU remapped by a professional.  
Characteristics  
:Section : front pipe  
Material : stainless steel  
Type : 1 piece  
Note : For even more performance, GReddy recommends pairing this front pipe with the available Circuit Spec center pipe for GR Yaris.
