Opis produktu

GReddy "Comfort Sports GT-S V2" for GT86 Specifications This GReddy catback can easily replace your stock exhaust from the catalytic converter. Offering a gain in power and a sporty sound, it's made from stainless steel by well known Japanese company GReddy. The GReddy Comfort Sport GT-S (version 2) exhaust is made up of a 60 mm diameter pipe, which then divides into 2 separate 50 mm tubes with 115 mm diameter titanium finish tips. The perfect compromise between performance and comfort for everyday use, this exhaust has been designed to be as versatile as possible. Its noise level of 82 dB makes it more aggressive than the OEM exhaust, without being too loud. Other advantages include its weight (it's a lot lighter than the OEM exhaust - 14 kg, almost 4 kg lighter than stock) and its high quality finish featuring the GReddy logo between the two tailpipes, or even its optimized design with better ground clearance for lowered vehicles. Delivered with all required accessories for installation, this catback goes directly in place of the existing exhaust, without any modifications. GReddy Comfort Sports Catback for GT86 Compatible with Toyota GT86 Designed and made by GReddy in Japan Improves performance Adds a nice sporty sound Made from stainless steel JASMA certified Accessories included, bolt-on fitment Titanium finish, 115 mm diameter twin tail pipes Optimized design for lowered vehicles High quality finish GReddy part n° : 10110732
