Opis produktu

GReddy Injector Kit To suit Toyota 2JZ-GTE VVTi & non-VVTi
Flow rate(s) : 695 cc/min, 834 cc/min, 931 cc/min
Type : top feed
Direct OEM replacement
Flawless quality and reliability
Fuel rail also available
GReddy part number(s) : 13913220, 13913221, 13913222, 13913320, 13913321, 13913322
GReddy Injector Kit for Toyota 2JZ-GTE Specifications
This GReddy kit, specially designed for the 2JZ-GTE (VVTi and non-VVTi) engine, includes a set of 695 cc, 834 cc or 931 cc injectors (as required) with connectors, terminals and sleeves to significantly improve the fuel supply to the turbocharged Toyota 6-cylinder. Developed to be 100% "plug and play", this kit combines top quality and reliability and can be installed in place of the OEM components, with no modifications required. For even greater performance, these injectors are also available in kits with their own dedicated fuel rail. This fuel rail is fully compatible with the stock surge tank.
Technical Data
P/N 13913220 / 13913320
Flow rate (cc/min) : 695 (3 bar)
System : top feed
Spray pattern : conical (9 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
P/N 13913221 / 13913321
Flow rate (cc/min) : 834 (3 bar)
System : top feed
Spray pattern : conical (7 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
P/N 13913222 / 13913322
Flow rate (cc/min) : 931 (3 bar)
System : top feed
Spray pattern : conical (7 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
