To suit Nissan RB26DETT
Flow rate(s) : 695 cc/min, 834 cc/min, 931 cc/min
Type : top feed
Direct OEM replacement
Flawless quality and reliability
GReddy part number(s) : 13923230, 13923231, 13923232
GReddy Injector Kit for Nissan RB26DETT Specifications
This GReddy kit, specially designed for the RB26DETT engine, includes a set of 695 cc, 834 cc or 931 cc injectors (as required) with connectors, terminals and sleeves to significantly improve the fuel supply to the twin-turbocharged Nissan 6-cylinder. Developed to be 100% "plug and play", this kit combines top quality and reliability and can be installed in place of the OEM components, with no modifications required.
Technical Data
P/N 13923230
Flow rate (cc/min) : 695 (3 bar)
System : top feed
Spray pattern : conical (9 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
P/N 13923231
Flow rate (cc/min) : 834 (3 bar)
System : top feed
Spray pattern : conical (7 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
P/N 13923232
Flow rate (cc/min) : 931 (3 bar)
System : top feed
Spray pattern : conical (7 holes)
Connector : Jetronic (square)
Resistance : 12 Ω
