GReddy part no. : 13522317
GReddy Surge Tank for Nissan S14 & S15 Specifications
Manufactured to make the most of the SR20DET engine in the Nissan 200SX S14, S14A and Silvia S15 ("Black Top" engine), this high-volume, high-flow GReddy cast aluminium plenum is ideal for use with aftermarket turbochargers. Its design allows airflow to enter each cylinder undisturbed and evenly for improved engine performance.
Key Features
To fit SR20DET engine
Tank capacity : approximately 1.6 times the OE ratio (+60%)
Compatible with the factory throttle body
Please note : as the mounting position is different from stock, some intake piping modifications may be required.
