Captures metal particles in oil
Made in Japan by GReddy
GReddy part number : 13901304
GReddy MD-04 Magnetic Sump Plug M16x1.5 Specifications
This GReddy anodized aluminum drain plug incorporates a powerful 5000 Gauss neodymium magnet capable of trapping metal particles in the oil. This direct fit plug helps to reduce the amount of abrasive residue in the engine, thereby optimizing its life. This MD-04 part number features an M16x1.5 thread that is compatible with Toyota GT86 and Subaru BRZ oil pans.
