High pressure radiator cap 1.3 bar
To suit Honda, Toyota, Mitsubishi...
Compatible with OEM radiators
Increases engine cooling
Made in Japan by GReddy
GReddy part number : 13901003
GReddy N Type 1.3 bar Radiator Cap Specifications
This GReddy N Type 1.3 bar radiator cap is compatible with many OE radiators with standard caps and fits most Honda and some Toyota and Mitsubishi vehicles.
Why use a 1.3 bar cap? A radiator cap rated at 1.3 bar will open later than an original cap, usually rated at 0.9 or 1.0 bar, thereby increasing the pressure in your cooling system. It increases the boiling point and ensures a more efficient cooling system for heavy duty use.
