Numer katalogowy	12094609

Opis produktu

GReddy 10 Row Oil Cooler Kit
For Suzuki Swift Sport ZC33S (2017+)
Engine code: K14C
Ideal for intensive use
Significant reduction in oil temperature
Built-in thermostat (opening between 73 and 84°C)
Comes complete with all accessories required for installation: hoses, bolts, brackets, fittings, etc.
GReddy part number: 12094609
Made in Japan
Express delivery!
GReddy Oil Cooler Kit for Suzuki Swift Sport ZC33S Specifications
Specifically designed for the Suzuki Swift Sport ZC33S, this GReddy cooler significantly lowers the engine's oil temperature, especially during heavy use. You are then able to exploit the engine's capabilities for longer while improving its reliability. This cooler keeps the engine oil temperature stable through high heat dissipation and minimal pressure loss. Sporty driving leads to an excessive increase in temperature inside the engine, which harms the oil that lubricates and cools it, resulting in reduced performance and, in the worst case, outright engine failure. Light blue in color, this 10-row GReddy oil cooler mounts in front of the radiator for maximum cooling. It features an internal thermostat (opening between 73 and 84°C) and comes with Earl's Prolite 350 braided hoses and GReddy fittings.
Kit Contents
Oil cooler core (10 rows)
Braided hoses
Fittings
