GReddy OX-02 Oil Filter Made in Japan by Trust, GReddy OX oil filters are designed for some of the most powerful Japanese vehicles, offering both excellent quality and performance. Thanks to their patent technology, these filters ensure one of the purest filtrations, and minimal oil pressure drop through the filter. Oil flow is also increased, ensuring better engine performance and cooling efficiency. GReddy recommend replacing the filter every 6 months or every 10.000 km, or more often for intense use. Give your Japanese sportscar the best !
